Tumelo Mogono

Junior Software Developer (Front-end JavaScript Developer)

I am a dedicated and adaptable Software development student with a background in Food technology, equipped with a strong foundation in programming languages, particularly JavaScript. I have a robust understanding of web development principles and a good eye for user interface designs. I possess a relentless drive for learning and a passion for creating intuitive user experience. I am seeking a role of a front-end developer and looking to leverage my technical skills and passion for coding to contribute innovative solutions and elevate user experience in dynamic software projects.
